# International Conference on Cyber Security Research & Innovation Conference 2019@ SECURECONF 2019

3<sup>rd</sup> – 4<sup>th</sup> July 2019, Taylor's University  
<https://sc2019.wsconferences.com>

## About Conference

In a *Cybersecurity Ventures* report on cybercrimes, the firm projects that the cost of cyberthreats will rise to \$6 trillion annually by 2021; that amount encompasses everything from damage and destruction of [data](#), stolen money, lost productivity, theft of intellectual property, theft of personal and financial data, embezzlement, fraud, post-attack disruption to businesses, forensic investigation, restoration and deleted hacked data and systems, to name a few. It isn't just the number of cybersecurity attacks that is increasing. The degree of these attacks is on the rise as well. According to a PwC report, these attacks are "becoming progressively destructive and target a broadening array of information and attack vectors. Looking ahead, PwC's [Global State of Information Security Survey 2018](#) states that "87 percent of global CEOs say they are investing in cybersecurity to build trust with customers."

With the above in mind, **SecureConf2019** is an exciting multidisciplinary conference focusing on the various technologies, threats and solutions related to Cyber Security. This conference is a premier platform aimed to provide opportunity for researchers, industry players, academicians, post-doctoral fellows and post-graduate students to share their research and industrial findings, discuss current trends and practices, and charter the path for innovation and further research and development in Cyber Security.

Organised on the 3<sup>rd</sup> – 4<sup>th</sup> July in Taylor's University, Subang Jaya this flagship conference is organised by WS Conferences, an entity under Wirahswasta Sdn Bhd in partnership with Taylor's University as **academic partner** and **supported** by Cyber Security Malaysia (CSM).

The conference provides an avenue to bridge the research/academia with the industry; encouraging funding and commercialization. This synergy between academia and industry collaboration enables us to provide a platform that bridges the gap.

## Conference Highlights

1. Renowned speakers from Industry and Academia for Keynote Addresses
2. Forum Sessions on the below proposed topics
  - a. Artificial Intelligence and Machine Learning to Boost Defence
  - b. Dearth of Skilled Cybersecurity Professionals
3. Unveiling of a 'Secured' Collaborative Platform
4. Accepted papers will be presented in a SCOPUS, ISIS, DOAJ, Google Scholar indexed Journal and a recipient of CREAM Award from Ministry of Higher Education, Malaysia
5. Showcase of Taylor University's and a few more Student FYP Projects
6. Showcase of a revolutionary community owner cybersecurity platform

## What's Exclusive About This Conference?

1. Wirahswasta is developing a secured platform for Researchers/Academicians to securely deposit their abstract/full paper for industries to access for the purpose of collaborations, crowd-funding, commercialization and any other potential partnerships with secured credentials. The platform also works for industries This platform will be unveiled during the event.
2. The conference will be organised in conjunction with Taylor's University student's Final Year Project showcase.
3. The conference is focusing only on Cyber Security related themes ranging from Data, Information Systems, Artificial Intelligence, Network, Human Behaviour, Cloud, Mobile and many more fields that can be threatened and impacted by Cyber Security Threats or Attacks.
4. This conference does not focus only on the academicians and researchers but also the industry players that are generally more affected by these Attacks and Threats. This platform will result in more collaborations with the R&E Community providing new advancements/research/potential solutions that can be adapted by the industry players.
